

TUTTA N'ATA PIZZA

OUR HISTORY

It all started in 1981 when a boy passionate and skilled in the art of pizza, Franco Puopolo, decided, after the military service, to open his first pizzeria that remained in business until 1988.

After opening other businesses, in 2004, Franco returned to devote himself in the art of baking and opened "Pizzeria da Franco" in Carpi, which remained open until 2022.

Growing up in his father's pizzeria, Antonio organized and coordinated the restaurant's supplies while also supporting his father as a pizza maker's helper.

At the age of 21, Antonio began actively working with his father, taking the product to national and international levels, winning numerous awards.

Today Antonio opens his pizzeria in Carpi, TUTTA N'ATA PIZZA, making use of the techniques and passion handed down to him by his father and to his great experience made in pizzerias.

QUALITY IS THE KEY WORD.

Our path is outlined by the constant search for and enhancement of small and medium-sized authentic productions, linked to the territory, biodiversity and seasonality, to protect the sustainability of our environment while improving its quality.

We select for you the best ingredients from the best suppliers, raw materials chosen from the excellence of the Italian territory, flours from ancient grains and PDO and PGI products.

This is how our pizzas are born and grow like our business.

OUR DOUGH

We believe that dough is the real heart of pizza and should be a continuous study and research to create a better and better product.

We are always experimenting with new, special and different flours, mixing and adding "new flavors" such as hemp, cocoa, etc..

To always offer you different experiences.

As of today, we have also chosen WAMI - Water With A Mission. With each bottle we serve we guarantee 100 liters of drinking water to communities that still do not have access to this resource. On each bottle you will find a code: by entering it at www.wa-mi.org, you will discover the story of the family to whom you donated water.
